2.About Wheels for All

Wheels for All (the operating name of Cycling Projects Ltd) is a leading national charity delivering accessible cycling opportunities for people to be active on their terms.

- Wheels for All was established over 30 years ago and has created the largest network of accessible cycling opportunities across the country.
- Supporting people to start and continue cycling regardless of ability.
- Working with local partners, we have supported the creation of more than 50 accessible cycling hubs, many of which are now run independently, assisted by dedicated and committed staff and volunteers.
- Wheels for All is also a national leader for accessible cycle training providing specialist support and guidance to community initiatives and partners on setting up local inclusive cycling programmes.
- We are proud to support more people to be more active, improving their physical and mental wellbeing.
- We are committed to providing safe, enjoyable, accessible and social environments for our participants to begin and progress their cycling, whether for recreation or active travel.

Our strategic aims are:

- To be the lead for inclusive cycling at a national level
- To establish inclusive cycling opportunities within every region and district
- To support the development and sustainability of the projects of the charity
- To implement a fundraising strategy that supports local, regional and national *Wheels for All* programmes and other inclusive cycling programmes
- To champion a set of standards that underpin training and development for the sector and a Centre of Excellence programme for *Wheels for All*

We are currently in an exciting period of growth as we upscale our delivery to enable more people to enjoy the benefits of cycling. We are seeking to recruit to our Board of Trustees to help us deliver our ambitious plans.

Our new 'We Ride Together' Film captures the true spirit of the charity through powerful language and imagery by telling the story in the form of a poem about Dave, a *Wheels for All* volunteer and cyclist who had been recently widowed and joined the charity to help him deal with his bereavement. Loneliness is one the largest health concerns we face and people are feeling more isolated and disconnected than ever before, but Dave is proof that having a connection with others through a shared interest such as cycling can provide a happier and healthier future for all involved. Our cycling programmes are fine examples of how such communities can flourish and thrive and we should never underestimate the lifeline that the charity is to so many people.
